4. FINDINGS SUMMARY TABLE

The following table provides a comprehensive summary of all 3 finding(s) identified during this audit engagement.

#	Ref No.	Title	Severity	Category	Status	Recommendation
1	E2E-FIND-003	Potential Split Purchases Below Tender Threshold	MEDIUM	Fraud	CLOSED	Implement automated split-purchase detection in the ERP.
2	E2E-FIND-002	Tender Awarded Without Committee Quorum	CRITICAL	Compliance	CLOSED	Retrospectively review and ratify the tender decision with a full quorum.
3	E2E-FIND-001	Incomplete Vendor Due-Diligence Documentation	LOW	Control Deficiency	CLOSED	Implement system-enforced mandatory document upload.

Detailed Finding Descriptions:

E2E-FIND-003: Potential Split Purchases Below Tender Threshold [Severity: MEDIUM] [Status: CLOSED]

Condition: 5 separate purchase orders to vendor V-0145, each between 95,000–99,000 ETB, issued within a 14-day period.

Criteria: EEU Procurement Regulation Article 5.1 prohibits split purchasing to circumvent tender thresholds.

Cause: No automated monitoring or alert system for split-purchase detection. Procurement officers can issue multiple POs without system-level review.

Effect/Impact: Potential circumvention of competitive tendering; risk of inflated pricing and favoritism toward specific vendors.

Recommendation: Implement automated split-purchase detection in the ERP. Investigate the 5 transactions and recover any overpayment. Establish a quarterly spend analytics review.

Management Response: Management acknowledges the finding and has implemented corrective actions as detailed in the associated CAPA. All remediation steps are complete.

E2E-FIND-002: Tender Awarded Without Committee Quorum [Severity: CRITICAL] [Status: CLOSED]

Condition: Tender T-2024-015 was approved with only 2 of 3 required committee members present, violating quorum requirements.

Criteria: EEU Procurement Regulation Article 7.2 requires a minimum quorum of 3 committee members for tenders above 500,000 ETB.

Cause: Absence of a committee member was not escalated; no alternate member was designated. The procurement officer proceeded without quorum.

Effect/Impact: Potential legal challenge to the tender award; risk of biased vendor selection without proper oversight.

Recommendation: Retrospectively review and ratify the tender decision with a full quorum. Designate alternate committee members and enforce quorum checks in the tender management system.

Management Response: Management acknowledges the finding and has implemented corrective actions as detailed in the associated CAPA. All remediation steps are complete.

E2E-FIND-001: Incomplete Vendor Due-Diligence Documentation [Severity: HIGH] [Status: CLOSED]

Condition: 3 of 15 new vendors lack tax clearance certificates and bank verification letters in their registration files.

Criteria: EEU Procurement Manual Section 3.4 requires all vendors to submit complete due-diligence documentation before activation.

Cause: The vendor onboarding system does not enforce mandatory document upload before activation. Procurement officers can bypass the check manually.

Effect/Impact: Risk of fictitious vendor creation and fraudulent payments to unverified bank accounts.

Recommendation: Implement system-enforced mandatory document upload in the ERP vendor master. Re-verify all 3 vendors and obtain missing documentation within 30 days.

Management Response: Management acknowledges the finding and has implemented corrective actions as detailed in the associated CAPA. All remediation steps are complete.
